

Institute for Evidence-Based Change chooses Dundas Dashboard to Present Data Findings

January 21, 2014 Toronto Ontario – Dundas Data Visualization (www.dundas.com), a leader in data presentation solutions, today announced that the Institute for Evidence-Based Change (IEBC) has selected Dundas Dashboard to visualize and present its data findings to educational partners which will accelerate decision making and improvements in education.

IEBC (www.iebcnow.org), a nonprofit dedicated to using data to improve student success, analyzes educational data and will incorporate Dundas Dashboard to communicate its findings to stakeholders. The Dundas tools give the IEBC the ability to present key findings to users in a comprehensible format. This helps clients make informed decisions that improve educational programs and benefit students.

Troy Marchand, President and CEO of Dundas Data Visualization, said “We found that IEBC is an organization that truly understands data and the importance of how it is presented. Dundas and the IEBC share the common goal of using data to enable better decision making and positive changes in organizations.”

Brad Phillips, PhD, President/CEO of IEBC stated that, “Our past positive experience with Dundas made them the right choice for this new work. By choosing Dundas and simplifying database customization, we were able to cut development time in half.”

Phillips added that “Dundas’ ability to produce dynamic, accessible reports is highly beneficial to our clients. The powerful Dundas tools enable us to help stakeholders get the right data to the right people at the right time, empowering them to make better decisions for their organizations and the students they serve.”

About The Institute for Evidence Based Change (IEBC)

IEBC is a nationally-recognized nonprofit organization dedicated to improving academic success for all students. We do this by using data and collaboration to engage stakeholders in crafting evidence-based solutions for change. We have earned an outstanding reputation for our leadership and innovative approaches to working with educators and education stakeholders to access, organize, and use the data already at their disposal, as well as data from other systems and institutions. For additional information, please visit www.iebcnow.org.
