

Can Student Success and Revenue be Improved in Community Colleges?

IEBC's Bright Spots Advantage has the Answer

Retention
88% to 98%

Success
69% to 79%

Dramatic Increases in Course Success, Retention and Graduation: College 1

This college was struggling, had one of the lowest graduation rates in the country, and was facing possible defunding by the state. Staff morale was poor. After implementation of Bright Spots, graduation rate increased by 110%; they won the Aspen Institute's "Top 10 and Rising Star Award" and Achieving the Dream's "Leah Myer Austin Award" for excellence.

Increased Persistence for all Students and Increased Revenue: College 2

17%

Increase in term-to-term persistence rates: 62% to 79%, resulting in significantly increased revenue.

Focused on Eliminating Achievement Gaps in Race/Ethnicity: College 3

A technical college with already high success rates wanted to close their achievement gaps.

Achievement Gaps Nearly Eliminated!
